Dear Business Colleague:

Can you afford to miss out on potential business referrals or the opportunity to develop new business contacts with potential customers? Of course not! But if you are not a member of the St. Marys Area Chamber of Commerce, that is just what may be happening.

More and more business and industry executives are discovering that by working together with the Chamber and its near 300 member firms, much can be accomplished that will benefit them and the rest of the community. They are recognizing that with a business in the St. Marys Area, they have a stake in the area from which they hire employees and where they pay taxes.

Many think of Chamber membership as a community service, and indeed it is. In order to gain ground in sports, it takes teamwork. In business, the rules are much the same. We've got to pull together. The St. Marys Area Chamber of Commerce is providing the team that helps our community's economy continue to advance. But Chamber membership involves much more.

Many people see the Chamber as an organization for business advocacy, keeping abreast of current legislation and informing our legislators on its potential impact to our business community. And indeed we do stand up for business and seek to preserve the free enterprise system. But this is only part of our overall mission.

Many people think of the Chamber as an organization dealing with tourists and area promotion. And indeed, we do promote the St. Marys Area through our many activities including: the fireworks, "Wing Fling", Summer Concert Series, Christmas lighting display, and many others. But again, this is only part of our work.

Many business owners just have an incomplete image of their local Chamber and ask, "**What can the Chamber do for me?**". As you read the enclosed list of membership benefits, you may be pleasantly surprised. Actually, our primary mission is helping our members, the existing businesses in the area, in every way possible.

Member businesses have found that contacts made at Chamber-sponsored events, meetings and mixers have been invaluable. Also, business referrals are very tangible benefits of Chamber membership. We refer only our members to the many business inquiries received each day.

Please take a moment to review the attached list of membership benefits. Your St. Marys Area Chamber of Commerce needs your investment and personal involvement to continue our growth and to have the ongoing impact on the business climate that cannot be accomplished independently. Your membership investment is also a tax deductible business expense.

Yes, we are a community service, and need you to do your part. But we also provide benefits to enhance your bottom line. So, **join the Chamber - it's good business!**

Sincerely,

Mark E. Rupprecht

What the Chamber does.....and doesn't do

We are often asked what exactly it is that the Chamber does. This is not an easy question to answer because of the diversity of our activities, as well as the wide variety of businesses and organizations that we represent. Hopefully, this will help to clarify some of our roles and responsibilities and will also spell out those things are that we don't do.

- ⇒ **The Chamber is** the first stop for many visitors to our area. We provide assistance to individuals who are visiting, those who are thinking of relocating here, companies which would like to do business here, etc. We provide directions, brochures and maps, recommendations on where to stay or eat, souvenir items, things to do in our area, places to purchase items, where to go for more information, names of companies that produce certain types of products, and much, much more. And of course, whenever possible, we make referrals to our *member businesses*.
- ⇒ **The Chamber does** pay the majority of the expenses for the annual Christmas lighting program with some financial assistance from the City of St. Marys. **The Chamber does** put on the annual fireworks display by requesting donations from local companies and individuals and through fundraising activities. All money raised for fireworks is spent on fireworks.
- ⇒ **The Chamber is not** responsible for recruiting businesses for the downtown. However, **the Chamber does** work closely with both the Marienstadt Corporation and the City of St. Marys in all aspects of downtown revitalization.
- ⇒ **The Chamber does** provide numerous opportunities for our members to advertise their products and services. These include: Chamber Gift Certificates (redeemable only at current Chamber member businesses); mailing inserts (a great way to reach 300+ business people in our region); the Chamber Membership Directory (a full-color brochure, printed annually, listing our members and other pertinent information about the community); and our web site (all members are listed alphabetically and by category on the Chamber's Web Site).
- ⇒ **The Chamber does not** promote any individual company to the exclusion of others, but promotes our business community as a whole. **The Chamber does** provide assistance to existing and potential businesses. We are a Small Business Resource Center in cooperation with the Small Business Development Center at Clarion University. Coordination of grand opening and ground breaking ceremonies can also be provided.
- ⇒ **The Chamber does not** provide low-interest loans or grants to businesses or individuals. (For information on these types of funding, contact the St. Marys Area Economic Development Corporation).
- ⇒ **The Chamber does** monitor issues pending in the federal, state and local governments and inform our members when their input could be beneficial. We also sponsor periodic legislative forums so our members have the opportunity to speak to our legislators directly about their concerns. However, the **Chamber is not** a political entity. We do not endorse political candidates or their platforms.
- ⇒ **The Chamber does** provide information and assistance when requested to companies which are interested in locating here. However, **the Chamber does not** have any control over which companies come or do not come. The Chamber proudly supports the free enterprise system.
- ⇒ **The Chamber does** assist the local hospital in their recruitment efforts by providing community tours for physicians who express an interest in relocating here.
- ⇒ **The Chamber does** provide numerous opportunities for networking at a variety of events such as the Annual Dinner, Golf Outing, Women's Recognition Program, seminars, legislative meetings, etc.
- ⇒ **The Chamber is** funded by membership dues, project income, and sales of souvenir items and directories. **The Chamber does not** receive funding from any government agency.
